Calculus 12 LG 7/8 Quiz Prep

- Determine the inverse of a function.
- Solve an exponential equation word problem.
- Implicit differentiation to find the equation of a tangent line.
- Derivatives of logarithm functions.
- Derivatives of exponential functions.
- Logarithmic Differentiation.
- Inverse trig differentiation. (NOTE: the formula for the inverse trig derivatives will be given on the test).
- Related Rates
- L'Hopital's Rule limits.
