Inductive and Deductive Reasoning

INTRODUCTION:

How do investigators determine what has happened at an accident scene? What reasoning do they use to help them understand what has happened? Check out pages 2-5.

LEARNING GUIDE EXPECTATIONS:

On the completion of this learning guide you will be able to develop your logical reasoning ability by:

- 1) forming and analyzing conjectures.
- 2) proving or disproving conjectures to solve problems.
- 3) analyzing puzzles and games involving spatial reasoning.
